

ANTI-MICROBIAL POLYMER LAMINATE FILM

For use in most Cold Laminating machines
including Seal, Royal Sovereign, Solo, Polar,
Ving, GBC and many more.

WHAT IS BRANDARMOR+?

BrandArmor+ is a fluoropolymer Laminate Film with a safe Anti-Microbial surface. BrandArmor+ possesses a unique combination of desirable properties such as higher resistance to heat, chemical attachment and outstanding physical toughness. When applied to surfaces it creates a barrier of protection for the surface below.

54" x 75 FT

BRANDARMOR+ LAMINATE CREATES A DURABLE MATTE, EASY CLEAN POLYMER SURFACE

Antimicrobial Protection For Your
Contact Surfaces

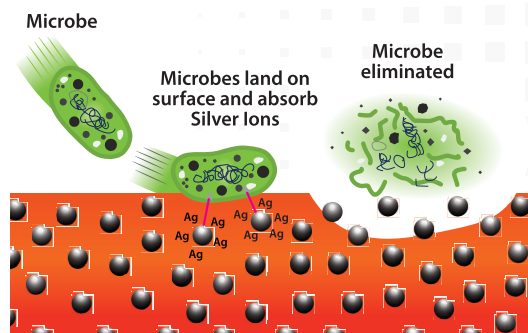

INHIBITS GROWTH OF MICROBES
99.99%

WHY A POLYMER SURFACE?

- BrandArmor+ is chemically inert meaning it can be cleaned with any nonabrasive cleaner or chemical without harming the finish
- Graffiti resistant, even sharpie doodles simply wipe off
- Colors stay clean, crisp and bright and they do not fade, inside or outside

HOW SILVER IONS KILL MICROBES

5-YEAR 100% REPLACEMENT WARRANTY

Limited Warranty*

BENEFITS

- Excellent chemical resistance
 - Outstanding physical toughness
 - Low smoke and flame characteristics
 - Outstanding resistance to weather & aging
 - Good dielectric properties
- Non-stick characteristics
- High resistance to heat, continuous use temperature of 150°C.

PROTECT HIGH CONTACT SURFACES AT:

- Schools | K-12
- Hospitals
- Foodservice | Restaurants
- Office Buildings
- Retail Stores
- Senior Care Facilities
- Doctor & Dental Offices
- Day Care Facilities

Antimicrobial Protection For Your Contact Surfaces

FDA COMPLIANCE

Confirms FDA compliance for Food Contact Notification (FCN) number 481 for its BrandArmor+ The U.S. Food and Drug Administration concurs compliance on the FDA website.
