KODAK Production Matte Paper, 170gsm provides users the ability to print high-quality, low-cost photos on a smooth, bright white surface. Production Matte Paper covers the application spectrum, and is perfect for architectural drawings or full-color photos. It provides high ink-load retention needed for saturated colors, quality images, and brilliant colors. This paper can be thermally laminated, making it ideal for producing high-impact graphics. It is often used by shops who want a low-cost way to produce high volumes of POP displays, posters, or color accurate renderings. It is universally compatible with thermal and piezo pigmented and dye inks, is instant-dry and is an FSC®-certified paper.

Kodak's improved replacement for KODAK Instant Dry Photographic Satin Paper is a genuine resin-coated paper that provides excellent image quality and instant dry times with Epson dye and pigment inks, HP pigmented inks, and dye-based Encad and HP printer/ink combinations. Turn out posters and signage faster than you can say "tradeshow graphics" with Kodak's Rapid-Dry wide-format media. Outstanding color density and wide color gamut give you breathtaking image quality. Innovative microporous coatings make for fast dry times, which means less chance of smearing and waste, and the ability to apply laminates instantly.
