

Phenol-Free Thermal Paper

New! Phenol free thermal paper. A low-caliper, economy point of sale and receipt grade with good imaging characteristics without BPA or BPS. Manufactured using Vitamin C in creating the printed image, which gives the paper its natural yellow shade on the front and white backside.

Specifications

- Basis Weight: 48 gram
- Caliper: 2.1 mil
- Phenol Free
- Thermal
- Image Life: 5 years with proper storage

Applications

- Point of sale receipts
- Grocery receipts
- Restaurant receipt
- Coupons
- Medical charts
- Warehousing
- Inventory Tracking

Characteristics

- Manufactured without BPA, BPS or other phenol based thermal developers
- Includes Vitamin C as a thermal image developer

- Natural Yellow color on front (thermal imaging) side
- White backside
- Low caliper for longer roll length
- Lower basis weight reduces freight costs
- Good imaging for short life receipts
